

BENEFITS OF A MANAGED ANTI-VIRUS

FULLY MANAGED SOLUTION FOR THE SAME PRICE AS YOUR ANTI-VIRUS SOFTWARE!

We include enterprise class endpoint software, monitored by us 24/7, and managed by a team of technical experts that will provide you with regular reports to ensure you can see that the devices in your business are protected at all times!

REDUCED OPERATING COSTS

A security incident can stop you from being 100% productive at work. This costs the company a lot of money in lost productivity and in opportunity costs. A virus can hit many machines and take weeks to eradicate. Removing this risk will save you money.

PROTECT YOUR COMPANY'S CRITICAL ASSETS AND INFORMATION

Proactive technologies ensure an additional protection layer against all types of unknown malware, targeted attacks and Internet threats.

A FLEXIBLE SECURITY SOLUTION

Our advanced security features offer the appropriate security for any size of company and network.

COMPREHENSIVE REPORTING

No longer will you be unsure of how well you are protected. We will provide you with reports monthly that let you know that you are safe!

TOTAL PEACE OF MIND

Buying an anti-virus solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PCs and laptops are always protected and that there is a group of dedicated experts taking care of it for you 24/7.

KEY FEATURES

ENTERPRISE CLASS SOLUTION

Encompassing more than just anti-virus, this solution supports full endpoint security.

MOST ADVANCED PROACTIVE TECHNOLOGY

Comprised of intrusion prevention, proactive detection and behavioral analysis.

RANSOMWARE MODULE

Allows laptops outside of the network to be fully protected.

COMPREHENSIVE REPORTING PROVIDES TRANSPARENCY

A wide range of detailed reports are provided monthly to ensure you have visibility of what is happening and that you are being constantly protected.

“Almost 50% of SMBs shut down external network access during serious external attacks; for many SMBs, this can cause crippling revenue loss.”

MANAGED RISK & SECURITY

ARE YOU IN AN INDUSTRY THAT IS GOVERNED BY REGULATORY COMPLIANCE ACTS? IS THE THREAT OF AN AUDIT ALWAYS LOOMING?

Getting audited will cost your organization thousands! But what if you already had the reports ready for the auditor? Think of the savings!

We have the technology and the know-how to prepare your HIPAA, PCIDSS, GDPR, or other major compliance reports for you on a monthly basis. We can even tell you how you did and put a project plan in place if you are not meeting the relevant requirements. Stop looking over your shoulder, waiting for the big bill to come. Take control of your IT environment and start breathing easy. Don't be afraid of an audit... be ready for it!

BENEFITS OF MANAGED RISK AND SECURITY

BE PREPARED WITH SUPPORT AND GUIDANCE FROM THE EXPERTS

Our highly trained staff will ensure that your reports are prepared the way the auditors want to see them and they will take the time to make sure you know what's going on.

SECURE SENSITIVE CLIENT DATA

This is the reason that those regulatory compliance acts exist in the first place. What would happen to your business or your reputation if your client data was stolen? Ensuring you met regulatory compliance requirements means you did everything the government suggested and takes the pressure off.

ADDRESS ISSUES QUICKLY

Running the reports monthly means you have time to ensure any issues found are dealt with and

behind you. Don't wait for the audit to happen because then you are paying the fines and the project bills at the same time.

REDUCE OPERATING COSTS

Failure to meet regulatory requirements can lead to hefty fines. Identifying and eliminating these risks will save you money!

TOTAL PEACE OF MIND

With us, you never have to worry about being prepared for the inevitable audit. You'll be ready and your IT will pass with flying colors!
